

No.	Name	Location	Centre of site	Habitat
1	The Bracklesham Balls	(i) 1.5 km SW of end of Bracklesham Road	(i) 50° 44.90' N 0° 52.10' W	Boulder-sized concentrations embedded in level, mixed sediment
		(ii) 2 km SE of end of Bracklesham Road	(ii) 50° 44.50' N 0° 50.80' W	
2	The Mixon Hole	2 km SE of Selsey Bill	50° 42.24' N 0° 46.28' W	Limestone cap rock overlying cliff or 'soft grey' and 'stiff blue' clay; boulders, pebbles and shells at base
3	'Inner' Mulberry Harbour Unit	1 km SE of Pagham village	50° 45.55' N 0° 43.60' W	Wreckage of concrete and rusted steel. Surrounding sea bed of pebbles, gravel and silty sand
4	'Outer' Mulberry Harbour Unit	4 km SE of Pagham village	50° 44.76' N 0° 42.18' W	Wreckage of concrete and rusted steel. Surrounding sea bed of pebbles, gravel and silty sand
5	The Waldrons Reef	3-5 km SE of Bognor	50° 45.05' N 0° 38.10' W	Sandstone reef with large boulders
6	Shelley Rocks	2 km S of Middleton-on-Sea	50° 46.00' N 0° 37.00' W	Mixed sediment of boulders, cobbles, gravel and sand
7	HMS Northcoates	14 km south of Bognor	50° 39.71' N 0° 35.40' W	Steel wreckage in deep water
8	Worthing Lumps	8 km SSW of Worthing sea front	50° 43.96' N 0° 24.50' W	Chalk cliff with small boulders, gravel and sand
9	South-West Rocks	4.5 km SW of Hove	50° 47.60' N 0° 12.50' W	Chalk cliff, sand and pebbles
10	Looe Gate	4 km SSW of Hove	50° 47.74' N 0° 11.59' W	Chalk cliff, silty sand mixed with shells
11	Seaford Head Gullies	Between Seaford Head and Hope Point, just west of Cuckmere Haven	50° 45.20' N 0° 07.50' E	Shallow, near-shore chalk gullies and ridges
12	Royal Sovereign Shoals	12 km east of Beachy Head (the Royal Sovereign buoy marks the southern extent of the reef)	50° 44.50' N 0° 26.00' E	Extensive offshore sandstone reef (and part chalk reef)
13	The Hounds	Bracklesham Bay. 3 km NW of Selsey Bill	50° 44.16' N 0° 50.52' W	Limestone outcrops of bedrock and boulders, with some horizontal clay exposures and mixed substrata.
14	Whirlpool Hole	Just east of the Boulder Buoy, 3 km south of Selsey Bill	50° 41.40' N 0° 48.85' W	Steeply sloping seabed of gravel, with a few large boulders at the base
15	Outer Owers	8-10 km SE of Selsey Bill (includes the Elbow and the Shoal of the Lead)	50° 39.50' N 0° 41.00' W	Shallow (to deep) mixed substrata with limestone bedrock, boulders & mudstone on a tide-swept gravel slope
16	Kingmere Rocks	10 km SSE of Littlehampton	50° 43.53' N 0° 27.62' W	Sandstone & mudstone reefs, mostly of boulders, cobbles and mixed ground
17	Ship Rock	2 km SSW of the West Pier, Hove	50° 47.95' N 0° 09.90' W	Low-lying chalk reef/cliff

18	Brighton Marina	About 2 km E of the Palace Pier, Brighton	50° 48.50' N 0° 06.20' W	Mud seabed, but most interest in the communities associated with the floating pontoons of wood, polystyrene & concrete
19	Marina Reef	1 km SSW of the entrance to Brighton Marina	50° 47.64' N 0° 06.66' W	Reef of chalk and grey clay with chalk slabs and boulders
20	<i>City of Waterford</i> Wreck	15 km S of Brighton Marina	50° 40.57' N 0° 06.69' W	Metal plates & superstructure lying proud of seabed of sand and gravel
21	Subtidal wave-cut chalk platform (Brighton - Newhaven)	East of Brighton Marina to Newhaven breakwater (11 km in length)	50° 47.57' N 0° 01.27' W	Dissected chalk platform with ridges and gullies – site extends from mid-shore to approx. 750 m seaward
22	Subtidal wave-cut chalk platform (Hope Point - Beachy Head)	Adjacent to the Seven Sisters chalk cliffs (8 km)	50° 44.64' N 0° 10.23' E	Dissected chalk platform with ridges and gullies – site extends from mid-shore to approx. 750 m seaward
23	Beachy Head	Between 0 and 1 km S & SE of the lighthouse	50° 43.83' N 0° 14.89' E	Chalk bedrock, mixed sediments, mussel beds and angular greensand boulders (off Head Ledge)
24	The Horse of Willingdon Reef	8 km E of Eastbourne	50° 44.87' N 0° 22.31' E	Sandstone bedrock and boulder slabs
